EDUCATION

University of Massachusetts Amherst, *B.S. Computer Science*, Amherst, MA | Expected *May 2030*
East Greenwich High School, *High School Diploma,* East Greenwich, RI | June 2026
New England Institute of Technology, *Dual Enrollment Program* East Greenwich, RI | May 2026

EXPERIENCE

URI - Center of Cyber-Physical Intelligence and Security, *Research Intern* Kingston, RI | *Jun. - Aug. 2023*

- Built Python software to automate an existing RFID data-collection application through an API.
- Collected received signal strength indicator (RSSI) data using two Roombas with varied RFID sensor setups.
- Tested estimated tag coordinates against physical locations along predefined robot paths for RFID localization research involving deep neural networks and k-nearest neighbors.
- Troubleshooted robot path deviations and added physical guides to maintain consistent experimental routes.
- Streamlined experimentation and improved data reliability.

URI - Fascitelli Center for Advanced Engineering, *Research Intern* Kingston, RI | *Jun. - Aug. 2024*

- Supported the development of a generative AI tool designed to teach Python fundamentals.
- Assisted with research, testing, and presentation of findings to a school board in Providence, RI.
- Helped create a plan for integrating AI tools into educational settings.

PROJECTS

Discord Gacha Bot | JavaScript, Discord API *Summer 2026*

- Independently developed, tested, and deployed a Discord game bot, hosting it on a personal computer for use across Discord servers.
- Wrote a JavaScript import script to integrate an online dataset of 30,000+ fictional characters.
- Handled 7,000+ user commands over two months of active deployment.
- Implemented game logic and ordered command processing to handle simultaneous requests and deliver separate responses to users.

RELATED COURSEWORK

New England Institute of Technology: Intermediate Programming Using Python • Introduction to AI • HTML and JavaScript • Linux Fundamentals • Cyber Threats and Defense

LEADERSHIP, ACTIVITIES, & AWARDS

University of Massachusetts Amherst Varsity Esports (Valorant), Starting Player *Sept. 2026–Present*
New England Institute of Technology Varsity Esports (Valorant), Starting Player *Sept. 2025–May 2026*

- Helped the team earn second place in the NECC playoffs in the Fall season.

East Greenwich High School Chess Club*, President* *2023–2026*

- Led a club of approximately 50 members, organized meetings and events, and taught students chess.

East Greenwich High School Model UN*, Captain* *2025–2026*

- Served as one of five captains for 150+ members; mentored delegates, organized meetings and events, and coordinated conference registration.
- Earned individual Outstanding Delegate (BUSUN XXVIII, 2024) and Honorable Mention (BUSUN XXIX, 2025) awards at Brown University's Model UN conference.

Hack for Global Good*, Best Pitch — Team Award* *2025*

- Researched small-business cybersecurity and co-developed a nonprofit concept providing online courses and security software recommendations at Rocky Hill Country Day School's hackathon.
- Co-created and delivered the team's award-winning presentation.

SKILLS & INTERESTS

Programming Languages: Proficient in Java, JavaScript, Python, C#.
Interpersonal Skills: Collaboration, Organization, Team-Oriented, Works Well Under Stress, Problem-Solving.
Technical Experience: Knowledgeable with Machine Learning Fundamentals and Ability to Train Models, Data Analysis.
Tools: Claude Code, Codex, Cursor, PyTorch.
Language: Proficiency in Turkish and English.
Interests/Extracurriculars: Travel, Music, Chess, Reading.
